

## CSL0922

## Compact Drugs Interceptor

**Specification**

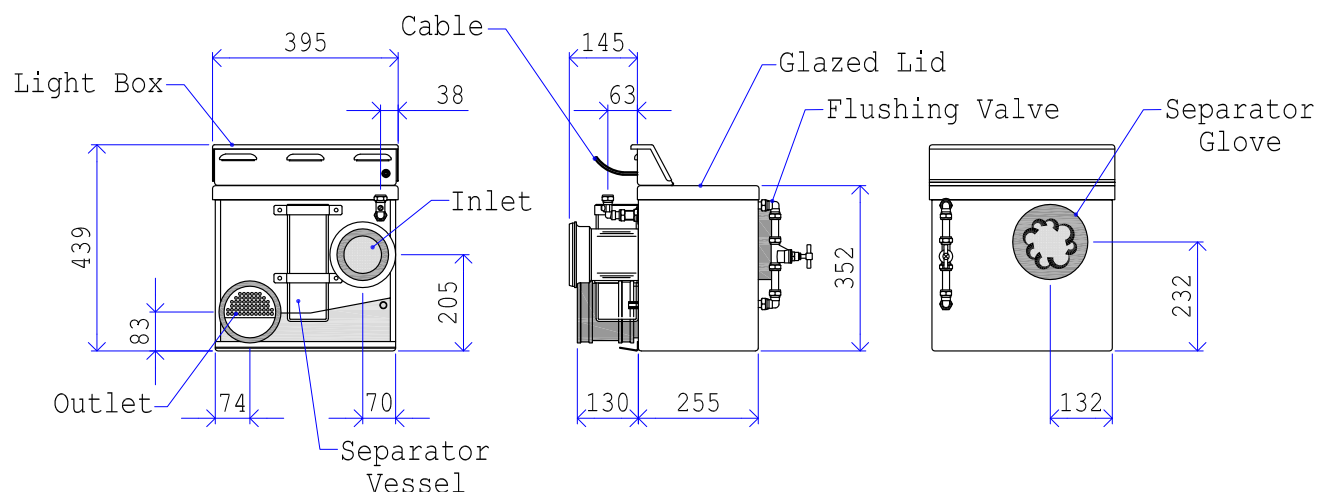

- Constructed from 1.5mm grade 304 stainless steel with all exposed surfaces polished to a satin finish
- The unit incorporates a wash down inlet connection pipe operated from the front, waste inlet pipe for connection to WC in the cell, an integral hinged contraband collection tray and an acrylic collection removable pot.
- The unit is supplied with one heavy duty right handed rubber glove and a clear polycarbonate inspection lid.
- Inspection light included, requires AC voltage.
- The hinged collection tray can be left in the vertical position which allows the WC to be used normally.
- Compact interceptor ideal for use within the duct area.

**SITE INSTALLATION INFORMATION**

- When installing the unit the following considerations to be made.
- Height of foul water inlet and outlet.
- Ensure there is an adequate fall of the toilet waste pipe.

**Finish**

- Satin polished stainless steel.
